With a background of work in the makeup industry for the past 21 years, I aim to continue the hard work & rely on my high motivation & ability to pick up new facets of the industry at any given time. I am a very fast learner. After been given the opportunity of working on Warner Bros., Steven Spielberg & BBC projects, I decided to excel with experience at the Cinema Makeup School in L.A. California in February 2011. I completed a six-month intensive course & obtained a Diploma in all aspects of cinema makeup: Beauty, Airbrush, Character, Bald caps, Conversions to old age, Design, Creation and application of Prosthetics, Life casting, Mold making, Special effects & Creature maquette. The course also covered Fashion, Body painting & some Photoshop skills.

In addition, over the past few years, I specialized in the use of the 'Lay on Hair' method for beards, mostly for Epoch films, under the supervision of Matteo Silvi. I have also mastered the use of Marcelle tongs for 'Layed On' beards as well as lace beards. I design, sculpt & make silicone molds for probondo or prosaide transfer use. Some of my work has been also used for underwater scenes, as well as situations of extreme heat, & have lasted efficiently well during filming hours. My undeniable focus & determination challenge me to succeed fully in the filming and makeup industry. I am hard working & a good team player

My work extends from Prosthetic Work painted in UV for Clubs or Shows to Bald Caps for HD camera. From Underwater Fashion shoots to SFX in extremely hot climates. From fully realistic Old Age Prosthetic Ageing to Dirt, grim and Sweat worthy of High Definition Lenses. From Full Body Painting and Realistic Tattoos to full, waterproof Tattoo Coverage.
